

Great to hear of your interest in becoming a member of the United States National Rifle Team (USNRT). Specifics about a tryout are as follows:

Where & when:

The tryouts are conducted on a 1000 yard range, see attached list of possible tryout locations. There are several across the US, so let us know which location(s) would be convenient for you so we can connect you with a tryout coordinator for that range. Then the two of you will schedule a mutually convenient time for the tryout.

Requirements:

Rifle and equipment must meet current ICFRA (International Confederation of Fullbore Rifle Association) rules found at <https://icfra.com/rules-match-conditions/> This includes, but is not limited to iron/aperture sights front and rear (with no more than 0.5x diopter in the front sight), sling width not exceeding 50mm; trigger weight at .5 Kg minimum, 156 grain bullet (for .308 caliber) or 91 grain bullets (for .223 caliber) maximum weight, and a front lens not greater than 0.50 magnification.

Shooter tryout course of fire: 120 shots for record broken down into six strings of 20 shots each fired at 1000 yards on the LR (long range) target-face.

- All six strings must be fired under a USNRT designated coach. Unlimited sighters are allowed for the first string of a day and two sighters for subsequent strings on the same day. The strings of fire must be shot consecutively. The shooter may not “cherry pick” the strings submitted for consideration.
- If the tryout cannot be completed in consecutive days, all six strings must be completed within three months of the first string being fired.

Tryout qualification score: 48 elevation points or less over the 120 record shots to be eligible for Regular membership. See the attached scoring diagram.

Obligations: Once qualified, or if invited to be a Provisional member, an individual must complete an administrative profile and pay dues

If you have any questions, please let us know. We look forward to hearing from you soon.

Sincerely,

Yvonne Roberts, Development Director, development@usnrt.com, 469-504-5400
Keith Hoverstad, Competitions Coordinator, competitions@usnrt.com
